There will be ample of mini games to test any type of player skill.

CHILL-OUT ZONES

METAGAMESPACE

OFFICIAL TOKEN METAGS

MetaGameSpace ecosystem will recognize our official MetaGS tokens and this is the tokens which the players and the community members need to enter our Gaming Metaverse and participate in Battle/Combat Arenas or Mini Games. The players need to use MetaGS tokens to buy and sell the in-game accessories NFTs which are all useable collectibles inside the "Genesys" Metaverse.

BENEFITS

1

The players will be given access to the Metaverse using the "MetaGS" tokens. The more you hold, the more sophisticated games you can play. This is the ultimate use-case and rewarding to holders.

2

"MetaGS" holders are the ones who will actually be playing our under-development games before anyone else does which means they will be given access to the Alpha versions of the game and will be given the power to vote on what they want to include in the game and ultimately in the Metaverse

3

"MetaGS" tokens will be integrated inside every game we develop and the users will be able to buy equipment, Characters and other In-Game accessories using the tokens. The accessories will be in the form of NFTs, the buyers are going to see them in action inside the game

4

"MetaGS" tokens will be used for swapping our limited edition NFTs and the price floor of these NFTs will be rising rapidly as we develop, benefitting the holders most

LIMITED EDITION NFTS TO SEE THEM LIVE INSIDE OUR GAMING METAVERSE

MetaGameSpace has released some **very Limited Edition NFTs** to be used inside our Metaverse. Those who mint the NFTs will be able to see them **in action inside our Games**.

The quickest minters are the ones who will have the biggest ROI (Return on Investment) for their minted NFTs. The NFT owners will be able to use the trading platform inside our Metaverse to ultimately buy and sell them or exchange them with other players (at the Players Chillout zone or in our website).

The minting will go live after the launch and the community will be addressed about the dates

PLAY TO EARN BNBS

Enter our Metaverse and compete within the Games launched to earn BNBS. The more your winning points are, the more BNBS you claim. You can roam inside and look for **Arenas or mini games to collect METAGS tokens**, our P2E system handles it with ease.

Our Play to Earn system will be integrated in such a way that the players earn BNBS on the basis of the points they generate inside the game. We are developing a smart system which tracks everything including the earnings, the gameplay time, the levels in the game, etc. This ensures that the players actually reap the maximum benefit while playing.

The community is going to see this in action with all our upcoming games starting with **"Genesys"**
